It is gratify to the proprietor of these medicines to be able to state that it is now nearly three years since they were first introduced, during which time they have been extensively used in various parts of the United States, and have given to patient and practitioner the highest degree of satisfaction in the various cases in which they have been employappointed their Agent for the county of Ottawa, for the sale of these well known medicines, ed; whether in town, country, hospital, or private apart of which have this day arrived at the drug practice, they have invariably given the most decided and unequivocal satisfaction, and produced the most salutary and beneficial effects. Numertinguished physicians in the country, and from the professors of several medical colleges, recom-mending in the highest terms the value of these medicines and their superiority over all other proparations for such complaints as the proprietor rec ommends. Numerous preparations of Sarsaparil-A RE now receiving from Propellers Pocahontas and Troy, the balance of their large and extensive Spring and Summer stock of Hardware, differ according to the mode of preparation which differ according to the mode of preparation which each individual may adopt

These medicines require considerable care in the preparation and the employment of different menstrua in successive operation to take up the extractive matters, and, in consequence, are most frequently improperly made, and not unfrequently much impaired, if not rendered totally inert, by the injudicious and unskillful management of those acquainted with pharmaceutical preparations. It is, therefore, of the highest considera-tion and importance to the public and to the faculty that there should be standard preparations of uniform strength and possessing the most advantages. To effect this and obviate the evil alluded to, I have made a number of experiments to ascertain the most effectual mode of extracting the virtues of the Sarsaparilla and the Buchu, and to discover the most eligible form for their exhibition. The experiments have resulted most favorably, and it is with much pleasure I now offer to the public and the faculty my Compound Fluid Extracts, which contain all the virtues of the arti-cles they are represented to be made from in a highly concentrated form, and are the most active preparations which can be made. poonfuls of the Extract Sarsaparilla added to a pint of water is equal to the Lisbon diet drink, and one bottle fully equals in strength one gallon of Syrup Sarsaparilla or decoction as usually made. distinguished professors and physicians will accompany each preparation. Prepared and sold by H. T. HELMBOLD, Practical and Analytical Chemist.

## A Human Life Saved!

Dowagrac, Mich., March 11, 1856. J. A. RHODES, Esq : Dear Sir-As I took your medicine on consignment, "no cure no pay," I take pleasure in stating its effects as reported to W. S. Conklin told me:

"I had taken nine bottles of Christie's Ague Balsam, and continually run down while using it until my lungs and liver were Congested to that degree that blood discharged from my mouth and bowels, so that all thought it impossible for me to live through another chill. The doctors too did all they could for me, but thought I must die.— Nothing did me any good until I got Rhodes' Fever and Ague Cure, which at once relieved me of distress and nausca at my stomach and pain in my head and bowels, and produced a permanent cure in a short time."

H. M. Conklin says: "I had been taking medicine of as good a doctor as we have in our county, and taken any quantity of quinine and specifies without any good result, from 25th of August to 17th of December. But seeing how nicely it operated on my brothes, I got a bottle of Rhodes' Fever and Ague Cure, which effected a permanent cure by using two-thirds of a bottle."

S. M. Coneklin was not here, but both the other brothers say his case was the same as H. M's. I sold the medicine to both the same day, and the cure was as speedy from the same small quantity. and I might so certify. Yours with respect,

The above speaks for itself. Good proof as it is of no better tenor than the vast number of certificates I have already published, and the still greater amount that is continually pouring in to me. One thing more. Last year I had occasion

to caution the public in these words:
"I notice one firm who have taken one of my general circulars, substituting the name of their nostrum for my medicine, and then with brazen impudence end their pamphlet with the exclamation, 'let the proprie-tor of any other medicine say as much if he dares.' Now I take pleasure in saying that the caution referred to the same "Dr. Christie's Ague Balsam" that is mentioned in the above certificate.

There are several other industrious people who apply to their poisonous trash all that I publish out my Fever and Ague Cure, or Antidote to Malaria, except the certificates of cures, and the certificate of the celebrated Chemist, Dr. James R. Chilton, of N. Y., in favor of its perfectly HARMLESS CHARACTER, which is attached to every bottle. These will always serve to distinguish my medicine from imitations,
